JACKPOT BINGO IS A HIT AMONG PLAYERS

Just over a week after its exciting launch, more than 1000 prizes have been claimed in Jackpot Bingo, the latest game from the Caribbean Lottery.

Jackpot Bingo, which gives four chances to win on every card, has proven to be highly popular and the players of Anguilla have been cashing in winning bingo cards in large numbers.

Tayna Gumbs, Marketing Manager, said that the game has caught on very quickly and the winners had been quick to collect their prizes.

“This game is unique in that it gives you so many ways to win,” she said. “Anguillans have taken to it and are reaping the benefits.”

There have been a whopping 1078 winners in the 4 Corners segment of the game while 299 have won Lucky Line and 100 players have collected prizes for achieving the Diamond formation.

While no one has as yet won the over \$30,000 jackpot prize, six players have come within a whisker of doing so.

The six players, having just missed winning the Blackout jackpot in 35 balls, went on to win the Second Chance Jackpot in 36, 38 and 37 balls respectively.

The draws for Jackpot Bingo are held every Monday, Wednesday and Saturday at 6:54 p.m. Tickets are sold by lottery retailers around the island.
